DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-22, drawn to process, classified in class 438, subclass 694.
- II. Claims 23-24, 26 and possible claim 25 drawn to product, classified in class 257, subclass 301.

Note: Claim 25 contains an error in the preamble. In claim 25, applicants recites, "The method defined by claim 24". However, claim 24 is a product claim and it is not a process/method claim. For the purpose of the election/restrictions requirement, the examiner will treat that claim 25 as the product. If the applicants wish to refer claim 25 as a process claim, applicants must correct the error as discussed above.

2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as process of making and product made. The inventions are distinct if either or both of the following can be shown: (1) that the process as claimed can be used to make other and materially different product or (2) that the product as claimed can be made by another and materially different process (MPEP § 806.05(f)). In the instant case, the product as claimed can be made by another and materially different process such as forming and etching layers without using the polishing step.

Art Unit: 1765

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. A telephone call was made to Edwin Taylor on 10-03-2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
